ABOUT TESCO

Technical Equipment & Supplies Company

Tesco provides high-end cost-effective IT business solutions geared towards improving efficiency and overall business performance. We follow three core principles, which have guided our work ever since our inception in 1975: quality, affordability and reliability. These continue to govern our innovative business solutions, our high-quality after-sale service and excellent technical support. At Tesco we value the importance of after sale support and have thus invested in a team of highly trained engineers, elevating us above the competition guaranteeing the total satisfaction of our clients . Our growing loyal client base is testimony to this.

Our commitment lies in meeting companies' specific operational needs and facilitating all aspects of their business across various sectors. Our products include a wide range of office printing solutions; IT infrastructure, software development support; security and surveillance systems and; plastic card and banking solutions all of which employ the most advanced quality technologies.

At Tesco we work with top international suppliers renowned for their expertise and cutting-edge technology. Our clients span a wide spectrum of profiles from government departments to private businesses in all sectors.

With headquarters in Amman and a subsidiary office in Aqaba, Tesco maintains an impressive presence across the Kingdom with representatives operating in all 12 governorates enabling timely and effective after sale support, ensuring minimal business disruptions to our clients.

Konica Minolta is a Japanese multinational technology company headquartered in Tokyo, with offices in 49 countries worldwide. The company manufactures business and industrial imaging including copiers, laser printers, multi-functional peripherals (MFPs) and digital print systems for the production printing market.
